(Submission of Bid through online)

Notice inviting EOI for engagement of a Consultant & Transaction Adviser for a Feasibility Study and selection of a private partner for operation of the proposed Ropeway / LRT/ POD connecting Action Area-III of New Town, Kolkata with the Kolkata Gate on PPP basis (2nd call)

WBHIDCO hereby invites expression of interest from reputed and experienced Consultants & Transaction Advisers comprising of well experienced team of renowned Urban Transport specialist, Operations Expert, Finance Specialist, Legal Specialist, PPP specialist for a Feasibility Study and selection of a private partner for operation of the proposed Ropeway / LRT/ POD connecting Action Area – III of New Town, Kolkata with the Kolkata Gate on PPP basis.

The EOI document is also available at our website <https://www.wbidcoltd.com>. Interested participants who meet the pre-qualification criteria may submit their Expression of Interest online with all the necessary documents as instructed in the EOI.

A) Introduction of New Town, Kolkata:

New Town, Kolkata is one of India's latest and fastest-growing planned new cities. The Township is strategically situated in the North Eastern Fringes of Kolkata, the capital of West Bengal. On one side, it is adjacent to Salt Lake City, another planned city close to the capital city of Kolkata and on the other, it is in close proximity to the Netaji Subhash Chandra Bose International Airport in Greater Kolkata.

New Town, Kolkata is fast emerging as a Smart and Green Township, which caters to the housing needs of all classes of people in the society and provides job opportunities to thousands of young people as more and more IT giants like as TCS, ITC, WIPRO, Infosys etc are setting up their units here.

The Township has Eastern India's largest Ecological Park developed on 480 Acres of green area surrounding a vast water body. The Park is better known as Eco-Park. The Township also takes pride in constructing an Iconic Welcome Gate to the people entering the City of Kolkata via Netaji Subhash Chandra Bose International Airport. The said Gate is better known as Kolkata Gate. Biswa Bangla Convention Centre, the largest Convention Centre in Eastern India with a sitting capacity of 3200 people, is another Iconic Structure that has added to the glory of this Township.

B) Project Objective:

The different parts of this Township are well connected with one another through a planned road network. The Township is sub-divided into mainly three Action Areas, namely Action Area – I, Action Area – II and Action Area – III. All the Action Areas are inter-connected through four Major Arterial Roads, namely Street No. 1111, Street No. 2222, Street No. 3333 and Street No. 4444. The Township has been planned for about 10 lakh resident population and about 5 lakh floating population. With the initiatives for all round development of the Township, the population of the Township is also gradually increasing.

To provide transportation within the Township for these people, a number of bus services are in operation in full swing. In addition, keeping in view a significant growth in both resident and floating population of the Township in the near future, Metro Rail has been introduced here and the construction work of the Metro Rail is nearing completion. However, the alignment of this Metro Rail passes through only Action Area – I & II of the Township.

As such, to ensure better and faster transportation within Action Area – III of the Township in the near future, a Ropeway / LRT / POD connecting Action Area – III with the Kolkata Gate located at the 3rd Intersection on Biswa Bangla Sarani (Street No. 1111) in Action Area – I is under active consideration of WBHIDCO. For viability of the Project, extending it within Salt Lake and beyond is also under the consideration of WBHIDCO.

In the above context, the major objectives of this project are as follows: -

- 1) To ascertain the appropriateness of the proposed project for introduction of Ropeway / LRT / POD as a new mode of transportation to address the issues related to the existing public transport system
- 2) To identify the most feasible Ropeway / LRT / POD mode of transportation and the best alignment
- 3) To ascertain the financial and economic feasibility of the project while ensuring affordability in macro-economic terms and most advantageous financing arrangement for implementing strategy
- 4) To identify the risks involved with the project and most appropriate risk-sharing basis to maximize the efficiency and the effectiveness of the project
- 5) To determine the most effective PPP option for implementation and the conditions of contract that should be introduced
